NCAA Eligibility Center Registration

The image shows a digital interface for the NCAA Eligibility Center registration process, designed to look like a wooden bulletin board. At the top left is the NCAA Eligibility Center logo. A navigation bar contains links: Welcome, About the NCAA, Divisions, Sports, For Parents, Resources, and Contact Us. On the left, a Nokia smartphone displays a 'Registered?' screen with instructions. The main area features a large, tilted card that reads: 'Welcome to the NCAA Eligibility Center. Your student-athlete experience begins here. At this site, you'll find the tools and information you need to begin your college experience. Explore this site to learn more about the NCAA, its athletics divisions, its sports and other information. Click on the phone or use the login box in the top right corner to complete your registration for eligibility.' Below this card is a calendar with dates 18 through 31, a photo of a basketball player, and a 'Resources' section. To the right, a 'Checklist:' section lists 'Create account' and 'Complete registration'. Above the checklist is a 'Divisions' tab and a 'About the NCAA' tab. In the top right corner, a login box is visible with fields for 'Username (e-mail)' and 'Password', and links for 'LOGIN', 'NEW ACCOUNT', and 'Forgot password'. A man in a dark sweater and jeans stands on the right side of the interface. A blue speech bubble points to the login box with the text: 'Click here to create or log onto your account.' At the bottom left, there is a Twitter link: 'Follow the Eligibility Center on Twitter'. A yellow string and a red whistle labeled 'Sports' are also visible at the bottom.

ACADEMIC INITIAL-ELIGIBILITY REQUIREMENTS

Definition of a Core Course

- ▶ A course that qualifies for high school graduation in one or more of the following: English, mathematics, natural or physical science, social science, foreign language or comparative religion or philosophy;
- ▶ Is considered four-year college preparatory;
- ▶ Is taught at or above the high school's regular academic level;
- ▶ For mathematics courses, is at the level of Algebra I or higher; and
- ▶ Is taught by a qualified instructor as defined by the appropriate academic authority.

What are Nontraditional Courses?

- ▶ Courses taught through:
 - ❑ The Internet (online or virtual);
 - ❑ Distance learning;
 - ❑ Independent study;
 - ❑ Individualized instruction;
 - ❑ Correspondence;
 - ❑ Computer software programs; or
 - ❑ Other similar means.

Things to Consider before Taking Nontraditional Courses

- ▶ Must include ongoing access between the instructor and student.
- ▶ Must have a defined time period for completion (i.e., six weeks).
- ▶ Should be clearly identified as nontraditional courses on the high school transcript.
- ▶ Must be four-year college preparatory and need to be comparable in length, content and rigor to courses taught in a traditional classroom setting.

Core-Course Time Limitation

Division I

- ▶ From the time you enter the ninth grade, you have four (4) years or eight (8) semesters to complete your core-course requirement. If you fail to complete high school "on time" in eight semesters, core courses taken after the eighth semester will not be counted toward your NCAA academic-eligibility requirements.
- ▶ "On time" also means that if your high school graduation takes place June 1, you must graduate June 1. If you do not graduate June 1 with the rest of your high school class, you have not completed your requirements "on time."

Division II

- ▶ You are permitted to use all core courses completed from your ninth grade year until the time you enroll full time at a college or university.
